

SWARAJMEET SINGH

Senior Software Development Engineer (iOS)

meetheiosdeveloper@gmail.com | +91 98785 68733 | bio.link/meetiosdev
Jalandhar, Punjab, India

PROFESSIONAL SUMMARY

Senior Software Development Engineer (iOS) with 7+ years of experience engineering high-performance mobile applications. Expert in **Swift Concurrency**, **System Design**, and **Modular Architecture** (MVVM/Clean). Proven track record of reducing app launch times by 30% and slashing CI/CD build times by 50%. Passionate about mentoring teams and adopting modern Apple standards (SwiftUI, Combine) to deliver scalable, crash-free user experiences.

TECHNICAL SKILLS

Languages: Swift 6.2, SwiftUI 5.0, Objective-C, C++

Core Frameworks: Combine, Concurrency (Async/Await), Core Data, AVFoundation, MapKit, XCTest, @Observable macro (performant view updates with less boilerplate than ObservableObject)

Architecture: MVVM, MVC, VIPER, Clean Architecture, Dependency Injection

Tools & DevOps: Xcode 26, Fastlane, CircleCI, GitHub Actions, SPM, Instruments, Firebase

Backend Integration: GraphQL, RESTful APIs, OAuth 2.0, WebSocket

EXPERIENCE

Crebos Online Solutions Pvt. Ltd.

Remote

Senior Software Development Engineer (iOS)

April 2021 – Present

- o Spearheaded the migration of legacy asynchronous code to **Swift Concurrency**, reducing main-thread blocking by **30%** and eliminating race conditions.
- o Architected a reusable **SwiftUI Design System**, accelerating UI feature delivery by **25%** across multiple consumer apps.
- o Engineered automated CI/CD pipelines using **Fastlane and CircleCI**, cutting weekly release cycle times by **50%**.
- o Led code reviews and technical mentorship for 3 junior engineers, enforcing SOLID principles and increasing code coverage to **85%** via Unit Testing.
- o Modularized monolithic codebases using **Swift Package Manager (SPM)**, improving build times and enabling easier third-party integrations.

WorksDelight

Chandigarh, India

Software Development Engineer II (iOS)

October 2019 – April 2021

- o Optimized memory management and view rendering, resulting in a **15% increase** in user retention due to improved app stability.
- o Integrated automated UI testing suites, reducing production bug reports by **20%** within the first quarter of implementation.
- o Established a consistent bi-weekly release cadence by streamlining the deployment pipeline.

Appolar Technologies

Chandigarh, India

Software Development Engineer I (iOS)

September 2018 – October 2019

- o Delivered 2 end-to-end iOS applications to the App Store, handling the full SDLC from requirement gathering to submission.
- o Implemented social graph integrations (Facebook/Twitter APIs), driving a **10% boost** in organic user engagement.

KEY PROJECTS

Mobbyou | SwiftUI, Combine, Core Location

- o Built a high-traffic consumer utility app focusing on intuitive UX; achieved **99.9% crash-free sessions**.
- o Implemented complex location services and geofencing to trigger contextual user notifications.

Melpot | UIKit, MVVM, AVFoundation

- o Developed a media-rich application capable of handling high-resolution video streams with custom caching logic.
- o Reduced data usage by **40%** by optimizing API payload sizes and implementing local offline storage.

EDUCATION

Lovely Professional University

Jalandhar, Punjab

B.Tech in Electronics and Communication Engineering

August 2011 – May 2015

ATTRIBUTES & HOBBIES

- **Professional Attributes:** Innovative Problem Solver, Effective Communicator, Detail-Oriented, Leadership Skills, Adaptable, Strong Analytical Skills, Technical Storytelling.
- **Hobbies:** Skilled Photographer, Avid Traveler, Music Enthusiast, Passionate Reader.
